Animation: GSAP, ScrollTrigger, Framer Motion, Lenis Scroll
Tools: Git, GitHub, Vercel, Vite, Figma, Postman

SELECTED PROJECTS

- RE Travel Dashboard** | *Next.js, TypeScript, Tailwind CSS, Shadcn UI* Apr. 2026
- Architected a **full-featured travel agency admin dashboard** with 5 dedicated modules: Overview, Bookings, Destinations, Customers, and Revenue — each with its own data view and management interface.
 - Built with **Shadcn UI** for an accessible, consistent component system; implemented **role-based layout** with Super Admin controls and a clean sidebar navigation.
- Al-Saad Construction** | *Next.js, GSAP, TypeScript, Tailwind CSS* Apr. 2026
- Built a **bilingual (AR/EN) corporate platform** for a 30-year construction firm with **10+ delivered towers** across Alexandria and Egypt's North Coast.
 - RTL/LTR layout switching**, GSAP ScrollTrigger animated counters, and interactive project gallery; **sub-2s load time** via static generation and `next/image`.
- El-Sherouq Hospital** | *Next.js, TypeScript, Tailwind CSS, Node.js* Mar. 2026
- Bilingual healthcare platform for a **24-specialty** private hospital serving **50,000+ patients/year**.
 - Full **doctor directory**, **appointment booking**, and **10+ SEO-optimized department pages** with per-physician dynamic routing.
- E-Commerce Platform** | *Next.js, Node.js, NextAuth, Axios* Jan. 2026
- 100/100 Lighthouse SEO** via Next.js SSR and structured metadata; **15+ API routes** with Axios and optimistic UI updates.
 - NextAuth** session management, 50+ product catalog with filtering, and cart-to-backend synchronization.
- Social Media Application** | *React, Node.js, TanStack Query, Zod* Dec. 2025
- Full-stack social platform with **Node.js/Express REST API**; cut network requests **40%** via TanStack Query caching.
 - JWT authentication**, end-to-end Zod validation, and dynamic client-side routing.
- Portfolio** | *Next.js, GSAP, Framer Motion, Lenis Scroll* Feb. 2026
- 95+ mobile Lighthouse score**; GPU-accelerated GSAP animations — horizontal scroll, pinned sections, staggered reveals — with Lenis inertia scrolling.
